 - (ii) a spirit drink produced exclusively by alcoholic fermentation and distillation of sugar-cane juice which has the aromatic characteristics specific to rum and a volatile substances content equal to or exceeding 225 grams per hectolitre of 100 % vol. alcohol. This spirit may be placed on the market with the word 'agricultural' qualifying the sales denomination 'rum' accompanied by any of the geographical indications of the French Overseas Departments and the Autonomous Region of Madeira as registered in Annex III.

This rum must have a volatile substances content equal to or exceeding 225 grams per hectolitre of 100 % vol. alcohol and must not be sweetened. The use of the word 'traditionnel' does not prevent the use of the terms 'from sugar production' or 'agricultural' which may be added to the sales denomination 'rum' and to geographical indications.

This provision shall not affect the use of the word 'traditionnel' for all products not covered by this provision, according to their own specific criteria.
